Diagnostic products:
AGRI

valid as of 01/07/2009
INTERNATIONAL MARKETS

TEXA

GENERAL SALES CONDITIONS

Price list n°144 is valid as of 01/07/2009

1. DEFINITIONS

PRODUCER: the PRODUCER is TEXA S.p.A.

RETAILER: the subject that sells the PRODUCTS to the CUSTOMER.

PARTIES: The PRODUCER and the RETAILER jointly.

CUSTOMER: the subject that buys the PRODUCTS from the RETAILER.

PRODUCTS: the services and tools sold by the RETAILER to the CUSTOMER and indicated in the SPECIAL CONDITIONS (Attachment 1). The PRODUCTS defined by the CONTRACT are only those listed in the Texa S.p.A. official price list.

2. PURCHASE ORDER, PRICE AND PAYMENT TERMS

The price established is the net price (invoice total amount VAT excluded), minus the sum agreed upon for any trade-ins or disposal of the CUSTOMER's used tool. All, expenses required in order for certain PRODUCTS to work shall be covered by the Customer. The payment must be made within the terms laid out in the SPECIAL CONDITIONS or, if not previously agreed upon, before delivery of the PRODUCTS. The payment deadline must be considered binding. The RETAILER may suspend the delivery of the PRODUCTS listed in this or in other orders until full payment for the order has been received.

3. DELIVERY, TRANSFER OF OWNERSHIP AND ACCEPTANCE

The delivery date given in the SPECIAL CONDITIONS is non-binding. Deliveries may be made in several lots. The place of delivery, when other than the Customer's headquarters, shall be indicated in the SPECIAL CONDITIONS. If not otherwise agreed upon by the PARTIES, the ownership of the PRODUCTS will only be transferred once full payment has been received. Until that moment, the CUSTOMER may not have use of the PRODUCTS. If payment has not been made the RETAILER may request the PRODUCTS to be returned. If necessary, the RETAILER may even decide to retrieve the PRODUCTS by going personally to the CUSTOMER'S place of storage and furthermore decide to take legal action in order to obtain the payment. Upon delivery, the CUSTOMER must inspect the PRODUCTS and declare any faults and non-conformities within 15 days. At the end of this period, the PRODUCTS will be considered as accepted by the CUSTOMER. Any PRODUCT returned, must be in its original state, with its original packaging, together with a note of return and proof of purchase. The costs for returning the PRODUCTS shall be covered by the CUSTOMER.

4. MANUFACTURING MODIFICATIONS

For reasons connected to the ongoing improvement of the PRODUCTS, rationalisation of industrial processes or variations in the components manufactured due to changes in the supply sources, the PRODUCTS are subject to continuous evolution that may involve manufacturing or aesthetic modifications. Therefore the CUSTOMER cannot refuse the PRODUCT that the RETAILER will make available in fulfilment of the order if partially different from that described in leaflets, when it maintains the same technical and functional characteristics. The information given in leaflets and in advertising documentation is in fact merely indicative, verified however that all the PRODUCTS are certified and have a conformity certificate.

5. PRODUCT GUARANTEE

5.1 HARDWARE: The RETAILER guarantees its PRODUCTS against manufacture faults and defects verified and recognised by the PRODUCER'S servicing network for a period of twenty-four months from the date of delivery or activation of the software. This guarantee consists in the obligation of the authorised RETAILER and/or authorised service centre to restore the PRODUCTS to full efficiency by free replacement or repair of faulty parts. The guarantee is not valid for defects deriving from: a) use not complying with user manuals b) improper maintenance or erroneous or inadequate calibration; c) use of software, interfaces, materials or parts not supplied by TEXA; d) unauthorised modifications; e) usage of the PRODUCTS in environments that do not comply with PRODUCER specifications; f) erroneous preparation or maintenance of the place of usage.

5.2 SOFTWARE: Although the PRODUCER has taken all the possible measures to assure the accuracy of the information contained or visualised in the software, it does not guarantee that the software is error or defect free. In this case, upon CUSTOMER indication, the PRODUCER will commit to fix and make proper corrections.

5.3 PLACE WHERE ASSISTANCE UNDER GUARANTEE IS PERFORMED: All repairs covered by the guarantee, if not otherwise established through written agreement, will take place at the PRODUCER'S headquarters or authorised service centre. All expenses incurred for the transportation of the PRODUCT to repair from the CUSTOMER'S premises to the Service Centre and/or for the transfer of the assistance staff of the PRODUCER or of the Service Centre to the CUSTOMER'S premises shall be covered by the CUSTOMER.

5.4 TRANSPORT: The guarantee excludes damage caused during transportation and breakage caused by inadequate packaging performed by CUSTOMERS when returning goods for repairs.

6. MAINTENANCE

Before being delivered to the CUSTOMER, PRODUCTS are carefully tested by the PRODUCER and (if required) by the RETAILER. However, PRODUCTS due to their particular characteristics always require routine maintenance (such as, systematic checks on the condition of the condensation filters and fumes in the "gas analyser", the cleaning of the smoke chamber in the "opacimeter" product, or making sure that the batteries of portable PRODUCTS are adequately charged, etc). Failure to perform the routine interventions, specified in the PRODUCTS handbooks, will render the right to service under guarantee void.

7. SOFTWARE USER LICENCE

Each PRODUCT sold to the CUSTOMER is accompanied by its Warranty Certificate and by the software user licence. For the purposes of the user licence contract, "software" refers to the program contained in the PRODUCT, and the term "licence" refers to the right to use or access a given copy of specific software. The LICENSEE must keep the licence contract as proof of the rights granted by the Licensor (PRODUCER). Should the LICENSEE not intend to accept the terms of the licence contract, he/she must immediately return the PRODUCT containing the software covered by the user licence to the RETAILER, together with all the other material and documentation received.

8. COLLECTION OF THE USED TOOL

In case the RETAILER is to collect a used tool, the following conditions will apply:

8.1 The CUSTOMER will sell the RETAILER the used tool at the price indicated in the Texa pricelist established under part "Price agreed upon for the collection or the disposal of used CUSTOMER tools".

8.2 The used tool sold to the RETAILER as a partial compensation of the price agreed upon for the PRODUCTS will be delivered and invoiced to the RETAILER.

8.3 At the moment of delivery to the RETAILER, the used tool must be property of the CUSTOMER, free of any constraints and in proper condition to be used as it is intended.

8.4 The RETAILER, at the moment of delivery of the used tool by the CUSTOMER, upholds the right to verify that the tool is in substantially the same

condition as it was upon signing this "Purchase Order". In the case that there are parts missing or that there are visible deterioration not deriving from normal wear, the value agreed upon may be reduced and the CUSTOMER will have to pay the difference in cash. If the faults or the missing parts are essential to the tool and its use, the RETAILER has the right to not accept the used tool and has the right to consider the "Purchase Order" null, sending the CUSTOMER a written communication.

9. RESPONSIBILITY

The CUSTOMER is responsible for the use of any tool and software program provided by the PRODUCER and sold by the RETAILER. The CUSTOMER undertakes to indemnify the PRODUCER and the RETAILER from responsibility and damage caused by the improper use of the PRODUCTS and by the use of the same that does not comply with the instructions indicated in the programs and in the user manual.

The CUSTOMER shall make use of all the information obtained in any way from the PRODUCER or the RETAILER fully aware that these cannot be exhaustive and that they must always be used as an integration of his/her own professional expertise.

10. FORCE MAJEUR

Strikes, industrial action, sudden and unforeseeable changes to the PRODUCER'S productive capacity, interruptions in transport or energy supply, orders by Public Authorities, natural calamities or other acts of God or unexpected circumstances affecting the PRODUCER's premises, those of its suppliers, during transport or at the RETAILER's premises will be considered as justifiable reasons for delays in fulfilling the obligations set out herein and for interruptions or delays in manufacture, distribution and repair processes. These events will suspend the execution of the CONTRACT, without obligation for the RETAILER to compensate the damages.

11. CONFIDENTIALITY

The Parties undertake to consider all technical and commercial information exchanged between them in connection with this sales agreement and preparatory phases thereof as strictly confidential and shall not therefore disclose them to third parties without prior permission from the other party to do so. The confidentiality obligation will last 4 (four) further years from the termination of this Contract.

12. TREATMENT OF PERSONAL DATA

All personal data provided by the CUSTOMER in contractual, commercial and promotional relations, will be used by the PRODUCER and the RETAILER in order to fulfil the contract, for legal obligations and, in anonymous form, for market research purposes and statistics. Furthermore, subject to explicit consent, the CUSTOMER's e-mail address(es) may be used by the PRODUCER and the RETAILER for the transmission of information, advertising or material relating to future sales initiatives and for the promotion of new products, services and offers including those by third parties connected to the transport sector. By signing hereunder, the CUSTOMER consents for his data to be transmitted and processed according to the terms and conditions here above. The CUSTOMER may at any time refuse the delivery of advertising material by writing to: privacy@TEXA.it.

13. ADDITIONAL AGREEMENTS

Any additional agreement or change to these conditions of sale will only be binding if expressed in writing and accepted by all PARTIES. The CUSTOMER understands that the RETAILER cannot act as a representative of the PRODUCER.

14. PLACE OF JURISDICTION

This agreement is governed by the Italian Law. The place of jurisdiction for any controversy shall be the Court of Treviso.
